DETAILED ACTION

Claims 1-5, 8, 10-12, 15, 17-26, and 28 are under consideration in this application.

Claim 27 is held withdrawn from consideration as being drawn to nonelected subject matter 37 CFR 1.142(b).

Election/Restriction

Newly submitted claim 27 is directed to an invention that is independent or distinct from the invention originally claimed for the following reasons:

Claim 27 is now withdrawn from consideration because applicants previously received an examination on claim 27 based on the product plus an inert carrier only. Applicants have now reintroduced the nonelected subject matter drawn to the presence of additional active ingredients in which they had canceled in the amendment filed on February 23, 2006. This appears to be an attempt by applicants to add back the nonelected subject matter.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claim 27 is withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

The restriction requirement is deemed sound and proper and is hereby made FINAL.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Art Unit: 1625

Claims 1-5, 8, 10, 11, 15, 17-25 and 28 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Again, claims 4, 5, 10 and 21-24 lack antecedent basis for the recited limitations. Claims 1 and 18 fail to clearly claim what is intended by applicants since the claims do not recite any pK_a values. In response to this rejection, applicants merely assert that the instant salts are novel. This is not persuasive.

Again, claims 1-5, 8, 10, 11, 15, 17-25 and 28 contain trade names omeprazole and esomeprazole. Where a trade name is used in a claim as a limitation to identify or describe a particular material or product, the claim does not comply with the requirements of 35 U.S.C. 112, second paragraph. See *Ex parte Simpson*, 218 USPQ 1020 (Bd. App. 1982). The claim scope is uncertain since the trademark or trade name cannot be used properly to identify any particular material or product. A trademark or trade name is used to identify a source of goods, and not the goods themselves. Thus, a trade name does not identify or describe the goods associated with the trade name. In the present case, the trade names are used to identify/describe chemical structures of the compounds and, accordingly, the identification/description is indefinite. Only the IUPAC name defines the structures of chemical compounds.

Applicants assert that the names are generic names and also agree on page 9 of the response that the generic names are indefinite.

Applicants are claiming a compounds of the formula. Pure chemistry, a compound. Not a resin of general property ranges, but a pure compound. That compound used for any purpose is taken from the public in a 20-year monopoly to applicants. Then, the public is entitled to know

Art Unit: 1625

what compound they cannot use. Yet, the claim is not specific to that compound. The generic names do not identify the chemical structure of the claimed salts. The public cannot tell what they may not use. How is a claim of the instant breadth defensible in an infringement action?

As applied to pure compounds, *In re Cavallito and Gray*, 134 USPQ 370, and *In re Sus and Schaefer*, 134 USPQ 301, are considered to set the proper applicable standard of required definiteness and support.

The claims measure the invention. *United Carbon Co. V. Binney & Smith Co.*, 55 USPQ 381 at 384, col. 1, end of 1st paragraph, Supreme Court of the United States (1942).

The C.C.P.A. in 1978 held "that invention is the subject matter defined by the claims submitted by the applicant. We have consistently held that no applicant should have limitations of the specification read into a claim where no express statement of the limitation is included in the claim": *In re Priest*, 199 USPQ 11, at 15.

Allowable Subject Matter

Claims 12 and 26 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 1 and 18 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Claims 2-5, 8, 10, 11, 15, 17, 19-25 and 28 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

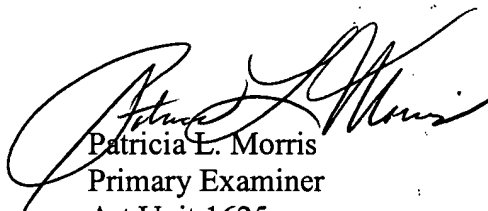

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
